Foreword	ix
Authors and collaborators	xi
Acknowledgements.....	xiii
Explanation of the fact sheets	xxii
Where, when, and what to look at? What to note?....	xxv
Main types of larvae of insects that undergo complete metamorphosis	xxxii
How to distinguish between hemiptera (Heteroptera) and homoptera larvae	xxxii
How to distinguish between mites, spiders and small insects	xxxiii

STRAWBERRY DISEASES AND PESTS

Phenological stages.....	2
Scouting table for the main strawberry pests	3
Diagnostic key for strawberry	4

Diseases

Anthracnose fruit rot.....	9
Powdery mildew.....	12
Aster yellows, green petal and multiplier disease	15
Viral diseases.....	19
Gray mold	20
Slime mold	23
Leather rot (Crown rot)	24
Black root rot.....	27
Red stele root rot.....	30
Leaf spots	33
Verticillium wilt.....	48

Pests

Redheaded flea beetle	51
Strawberry bud weevil.....	53
Meadow spittlebug	56
Strawberry root weevil and black vine weevil....	58
Strawberry rootworm.....	61
Potato leafhopper	63
Springtails	65
Locusts and grasshoppers	67
Gall wasps	70
June beetles (May beetles).....	71
Strawberry seed beetle	73
Slugs	75
Mammals	77
Noctuids, cutworms, armyworms	79
European earwig.....	82
Strawberry aphid.....	84
Tarnished plant bug.....	87
Rose chafers	90
Cyclamen mite.....	91
Click beetles (wireworms).....	94
Two-spotted spider mite	96
Western flower thrips.....	99
Leafrollers.....	101

RASPBERRY DISEASES AND PESTS

Phenological stages.....	106
Scouting table for the main raspberry pests.....	107
Diagnostic key for raspberry.....	108

Diseases

Anthraxnose	112
Powdery mildew.....	115
Spur blight.....	118
Fire blight	121
Gray mold	124
Phytophthora root rot.....	127

Late leaf rust.....	131
Raspberry leaf spot.....	134
Crown gall and cane gall.....	136
Verticillium wilt (bluestem)	140
Viral diseases.....	143

Pests

Rednecked cane borer	148
Redheaded flea beetle	150
Raspberry cane borer	152
Strawberry bud weevil.....	155
Raspberry fruitworm.....	157
Meadow vole (field mouse).....	159
Strawberry root weevil	161
Potato leafhopper	163
Gall wasps	165
Crickets	167
Raspberry cane maggot.....	170
Four-spotted sap beetle (picnic beetle)	172
Aphids	174
Tarnished plant bug.....	175
European corn borer.....	177
Raspberry crown borer	179
Japanese beetles	181
Blackberry skeletonizer	183
Wireworms (Click beetles).....	185
Raspberry sawfly	187
McDaniel spider mite.....	189

BLUEBERRY DISEASES AND PESTS

Phenological stages.....	194
Scouting table for the main blueberry pests	195
Diagnostic key for blueberry	196

Diseases

Anthracnose fruit rot.....	200
Powdery mildew.....	204
Twig blight	207

Gray mold	210
Stunt disease.....	213
Mummy berry.....	215
Witches' broom	219
Leaf rust.....	221
Sooty blotch	223
Leaf spots	224
Crown gall.....	227
Viral diseases.....	230

Pests

Meadow vole (field mouse).....	240
Blueberry midge	241
Heath spittlebug	242
White-tailed deer.....	244
Plum curculio	245
Redhumped caterpillar	248
Write-marked tussock moth.....	250
Fall webworm.....	251
Leafhoppers.....	253
Blueberry tip borer	255
Terminal borers	256
Ants	258
Blueberry stem gall wasp	260
June beetles.....	262
European fruit lecanium	265
Snowshoe hare	267
Slugs	268
Eastern tent caterpillar	270
Forest tent caterpillar.....	272
Blueberry leafminer	274
Blueberry maggot.....	275
Copper underwing (rear-humped caterpillar, pyramidal fruitworm moth).....	278
Cherry fruitworm	279
Birds.....	282

European earwig	284
Lesser appleworm	286
Blueberry bud mite.....	289
Aphids	291
Cranberry fruitworm	293
Cecropia moth	296
Rose chafer	297
Japanese beetle	298
Click beetles (wireworms)	300
Oblique-banded leafroller.....	302

BENEFICIAL ORGANISMS

Predatory mites	306
Spiders	309
Green and brown lacewings	311
Lady beetles, ladybirds	313
Parasitoid wasps.....	316
European mantid	319
Predatory flies	320
Pollinators	324
Predatory bugs	330

Glossary	333
References.....	342
